# TEA SELECTION

## BLACK TEA

### Ceylon

From one of the most beautiful cities in Sri Lanka, Ceylon brings together full and flavory Dimbula with highly aromatic and intense Uva and lightly scented high-grown Nuwara Eliya. A tea made for sipping with pleasure all day.

### China Rose Petal

China Congou black leaf tea layered with pink rose petals. It's a mellow, sweet-tasting tea with a wonderfully perfumed aroma.

### Darjeeling

An immensely comforting cup, this is an early stage muscatel tea with smooth and woody flavors that strike a pleasant note. Due to low oxidation, the flavors are bright, mellow, and keep you hooked onto the signature Darjeeling experience. The liquor is crisp, clean, edgy at times and feels ample in the mouth.

### English Breakfast

A special blend of teas from India and Africa. This breakfast tea is full-bodied, rich and refreshing, with a bright, inviting color.

### Earl Grey

Fine black tea with fragrance of Bergamot. This elegant tea was first invented as a Mandarin's gift to the second Earl Grey in the 1880s.

### Fine Assam

Created with the finest Assam tea grown in Brahmaputra Valley, North East India. Enjoy its rich flavor and distinctive malty taste.

### Irish Breakfast

Sourced from the finest tea gardens of Rwanda, Kenya and the Assam Valley of India, this robust blend is famous for its rich golden color and much loved taste. Stronger than English breakfast tea, but not quite as strong as the Scottish variety.

### Lapsang Souchong

Created in the mountains of China, where the leaves are dried on bamboo over smoking pine wood fires. It's one of the oldest tea-making methods in the world, and it gives the leaves a uniquely deep, rich, smoky flavor.

### Masala Chai

Ours combines second flush Assam teas with pungent ginger root, cassia, black pepper, cloves and cardamom to create a rich and spicy brew worthy of any chai wallah.

### Scottish Breakfast

A blend of the very best Assam and African teas featuring full-bodied tea with a bold, delicious malty flavor.

### Tea Room Blend

To be drunk at any time of day, it's the perfect partner for SIP scones. Bright with a deep rich color and strong flavor to match.

## GREEN & HERBAL INFUSIONS

*(cf) naturally caffeine free*

### Big Hibiscus (cf)

The cabernet of hibiscus teas. Luscious red hibiscus with Indian sarsaparilla, ginger, pink rose petals, and elderflowers from Europe. Deep red and complex, this tea almost needs a corkscrew.

### HoneyBush (cf)

Honeybush grows in the western Cape of South Africa and has a distinctly honey-like aroma. Hand harvested in September and October, it offers a sweet, peachy flavor and a pinkish golden hue in the cup.

### Chamomile Meadow (cf)

A blend of golden Egyptian chamomile flowers and mildly stimulating, fragrant hyssop joined with smooth Cape rooibos, rose petals and linden flowers. Get ready to relax.

### Green Jasmine

Classic green China tea with full-bodied flavor, scented with freshly picked jasmine flowers. The flowers are harvested during the day and stored in a cool place until night. During the night, the flowers bloom with full fragrance. The flowers are layered over the tea leaves during the scenting process.

### Mao Feng Shui

This spring harvested Mao Feng green tea from Zhejiang China has a slightly sweet, vegetative taste and aroma with a lingering fresh aftertaste.

### Peppermint (cf)

It's no secret that the world's best peppermint comes from the Pacific Northwest. Gently hand-screened for perfect leaf size, it infuses a full, creamy flavor with distinct chocolate notes and an intense finish.

### Rooibos (cf)

Red bush grows near the South African town of Clanwilliam. In mid-January to April, the tender, topmost leaves are carefully hand picked and processed for a sweet, creamy, tea-like flavor.

### Sencha

In Japan, this delicate green tea leaf undergoes a very careful journey from field to cup. Slender needle-like leaves produce a deeply vegetal taste and lovely aroma, ripe with notes of toasted rice and nori.

### Spearmint

The fun-loving, slightly less intense cousin of peppermint.
